Serial No.

Letter No. 101 dated 1.5.1952 from the Director of Archaeology re: Electrical Installation to the Ancient Monuments of the State.

1) The Director of Archaeology states that at present the Archaeological Dept is not being consulted by the Electrical Dept while providing electrical installations to Ancient and protected Monuments and requests to issue necessary instructions to the concerned authorities to obtain the previous concurrence of the Archaeological Dept in all such cases; the estimates being got countersigned by the Dir of Archaeology before the work is taken up.

2) The procedure suggested by the Director of Archaeology is being followed in the P.W. Dept and the same procedure may also be followed in the Electrical Dept. This may therefore be referred to the Electrical Secty for issuing suitable instructions to the Chief Electrical Engineer.

Subject:- U.O. No.EDS.35/Elecl. 3-6-52 consulting Director of Archaeology for electrical installations and to the Ancient Monuments of the State.

---

Returned to the Secretary to Government, Elecl: Department.

6) The suggestion of the Director of Archaeology to consult his department in all cases of repairs etc., to protected ancient monuments including the works that may be carried out by this department is acceptable. In fact, all works of electrical installations for other Government Departments are being undertaken by this department only on acceptance of the concerned departments for the estimates prepared by this department for electric installations or repairs.

7) In the letter of the Director of Archaeology, no specific instance is quoted where electric works are carried out without consulting the concerned authorities for verification.

GOVERNMENT OF MYSORE

No. 101
Encl.

Department of Archæology,
Mysore, 1st May 1952. 195

FROM

THE DIRECTOR OF ARCHÆOLOGY,
MYSORE. Archy 3-52-1

To

The Secretary to the Government of Mysore,
Local Self-Government Department,
BANGALORE.I.

SIR,

Subject: Electrical Installation to or repairs to the electrical fittings etc., of protected ancient monuments in the State.

I write to state that it has been noticed that electrical installations and repairs to the electrical fittings etc., of the protected ancient monuments are being undertaken by the Electrical Department without the consultation of this Department. The estimates for such works are not usually sent to the Director of Archaeology for countersignature. Consequently all such installations, repairs etc., come to the knowledge of this Department only during the periodical inspections of protected monuments. I feel that it is very necessary that the Department of Archaeology should be consulted in all cases of repairs etc., to protected ancient monuments including the work that may be carried out by the Electrical Department. This procedure will enable the Department of Archaeology to offer necessary suggestions from the point of view of archaeological conservation which will ensure the safety of the sculptures, inscriptions and other architectural features of the monuments.

I request therefore that Government may kindly be pleased to issue suitable instructions to the concerned authorities to arrange for the previous concurrence of the Department of Archaeology in all such instances. The estimates got prepared for repairs to electrical fittings or illuminations etc., of the ancient monuments may also be forwarded to the Director of Archaeology for countersignature as is done in the case of estimates for other repairs prepared by the Public Works Department.

Yours faithfully,
[illegible]

RKN.
